

# WEEK ONE

## Grade 3

April 13<sup>th</sup> – April 17<sup>th</sup>

	Monday	Tuesday	Wednesday	Thursday	Friday
Reading	Read an Easter Story or a story about bunnies from your house or Raz Kid account.	Make a couch fort and read your favourite books inside. Snap a picture and send it to your teacher.	Read a book with expression. Use voices that you think the characters would use.	Read a non-fiction book. If you don't have any in your house there is lots on RAZ kids. Tell an adult 3-5 things that you learned.	Draw a picture of your favourite character from a book. Add words to the picture to describe the character's traits.
Oral Language	Call a friend or family member to check in and have a conversation. Share your favorite thing about Easter.	Play I Spy with someone in your house! Can you find all the colors of the rainbow?	Would you rather be able to fly or be invisible? Make up your own questions.	Grab your favorite stuffed animals and put on a puppet show. Film it or perform it live!	Think of something in your head (person, animal, food) Have someone guess what you're thinking of by only asking yes or no questions.
Writing	You and three of your friends have gained entry into a worldwide Easter Egg Hunt with a big cash prize! Describe the hunt from beginning to end, including whether or not your team is the winner.	Create a made-up story using the words: bunny, eggs, bonnet, and sunshine.	You hear a knock on your front door and when you open it you see the Easter Bunny!....	What is your favorite Easter tradition?	What is the best treat you could ever hope to find in an Easter Egg?
Math	<u>Adding Day</u> Check out our website to find resources to help practice adding 😊	<u>Subtracting Day</u> Check out our website to find resources to help practice subtracting 😊	<u>Multiplication Day</u> Check out our website to find resources to help practice multiplication up to 5 x 5 😊	<u>Division Day</u> Check out our website to find resources to help practice division related to multiplication. No higher than $25 \div 5 = 5$ 😊	<u>Free Choice</u> It's Free Choice Friday. Finish/practice whatever you like and play a math game 😊

## Science :

STEAM Challenge of the week: Week 1: Don't Break the Egg!

First draw out a blueprint of a device that would protect an egg if it was dropped on a hard surface 1 meter off the ground. You may want to do this outside on the pavement. Using materials found at home (ex: cardboard, egg cartons, straws, tape, playdough, cotton balls, etc.) design a device to protect your egg from breaking. Test out your device! Remember to hold it 1 meter off the ground before dropping it. Take pictures and send them to your teacher. Good Luck Stingers!

## Colour Wars:

Here is your Colour War challenge of the week:

Decorate an egg that shows off your Stinger Pride. If possible send the pic to your teacher or even better post it on Twitter and tag Centennial School.
